The Organizational Directory is published annually by:

WO-Personnel Management
Work Force Management and Systems Branch

We have changed our name!

May 7, 1997, the Intermountain Research Station joined the Rocky Mountain Forest and Range Experiment Station. The new name for our combined Station is the

Rocky Mountain Research Station.

You will continue to receive the same quality research publications and service from the new Station that you came to expect from the two Stations. It will take approximately a year to completely combine services, so for a short time you will continue to see publications from the two former Stations. Please continue to request publications from the same address you have in the past.

We apologize for any confusion or inconvenience this change may cause, but are confident that the improved service

will be worth the effort. We welcome questions, concerns and suggestions you may have. Please contact our publications staff at:

This handbook is designed for use by members of the Forest Service, U.S. Department of Agriculture.

It shows the organization of the Forest Service, with the addresses and telephone numbers of the main field offices, but not the addresses of each Ranger District.

It lists personnel chiefly responsible for the various units, key functions, program managers, and/or research projects at the GS-11 and above level only. It also lists the support person that reports directly to the head of the unit only.

THIS IS NOT A LISTING OF ALL FOREST SERVICE PERSONNEL.
